EDUCATION

B.S. Software Engineering | Arizona State University

August 2017 - May 2021

EXPERIENCE

Senior Application Developer | Marsh McLennan

May 2021 – Present

Promoted to Senior Application Developer in 2024

Phoenix, AZ

- Demonstrated the use of RAG with LLMs to automate business objectives by building MCP agents on top of AI models. Accelerated software development efforts across teams by 3X by leveraging IDE embedded AI and MCP servers.
- Led a remote team of 8 developers in the development of business-to-consumer insurance applications for top corporations, ensuring alignment with organizational objectives and delivering high-impact solutions. Maintained advanced knowledge of React 17+, Angular 9 through Angular 15, Bootstrap, Tailwind, NodeJS, and Java Spring Boot to provide support for the team.
- Collaborated on new integrations and improved reusability and modularity to the internal platform, streamlining development through the creation of reusable components and services. Contributed to the decision making of long-term strategy for the platform including architecture and scalability.
- Demonstrated proficiency in full-stack development using Angular and Tailwind for the frontend, Java Spring Boot for the backend, and MongoDB databases. Enforced rigorous CICD pipelines and maintained high standards in application testing and vulnerability scanning.
- Instituted and maintained current technologies across all stacks, ensuring a modern tech ecosystem meeting WCAG accessibility guidelines and security best-practices. Upheld strict standards, fostering a culture of excellence and reliability in software engineering endeavors.

SKILLS

- **Programming Languages:** Javascript, Typescript, Java, C#, Python
- **Front-End:** HTML, SCSS, Angular, CSS, Tailwind, Bootstrap, Bulma, ReactJS, VueJS, Node
- **Back-End & Cloud:** Spring Boot, MongoDB, ExpressJS, Django, SQL, Azure
- **Tools:** Git, Copilot, GPT, VS Code, NPM, Jira, Confluence, JUnit, Jasmine, Mocha

AWARDS & CERTIFICATIONS

2023 MMC Tech CIO Award | Marsh McLennan

Awarded February 2024

The CIO Award recognizes exemplary colleagues that have gone above and beyond in contribution to culture and strategic objectives.

Microsoft Certified: Azure Fundamentals | Microsoft

Certified February 2024

This certification covers core cloud computing concepts and demonstrates a solid foundation in Microsoft Azure services, security, privacy, pricing, and support.

PROJECTS

Portfolio Website | <https://williamarnoldswe.com/>

2024

- My personal website showcasing my skills and projects. To demonstrate my consistency as an engineer, the site has options to live audit the accessibility, performance, and SEO. The site is written in React/Express with SCSS and deployed with Render.
